

## Limited Warranty

The SunRise™ Solar-Powered Attic Fan has a 5 year warranty on the motor and 10 years on all other parts. Each unit has been carefully designed and assembled at our plant in Indiana. Each unit is flash-tested for operation, and quality checked for defects before leaving our facility. This warranty applies to the original purchaser, whose name appears on the warranty certificate and is at the location shown on the warranty certificate. This warranty is non-transferable, and applies only to residential installations. Any alteration of the product will void the warranty.

All parts and mechanisms are to be free of defects in material and workmanship. The word “defects” as used in this warranty, is defined as imperfections that impair the functionality of the product. This Limited Warranty does not cover damage caused by misuse, abuse, scratching, corrosive atmosphere contaminants, lightning, earthquakes, windstorms, tornadoes, flooding, fire, modification, vandalism, negligence, or any other act of God or other causes beyond the control of SunRise Solar Inc., or the installing dealer/distributor. This warranty does not cover installation or roof leakage, as that issue will be the responsibility of the installer. This warranty does not cover color fading or normal wear and tear of the materials, which may take place with the passage of time.

At no time shall SunRise Solar Inc. be liable for direct or indirect loss, consequential damage, or any other claims except as provided for in this warranty. Defective components will be replaced for up to 10 years from date of installation. After 10 years a service charge may apply. Units needing repair must be returned to SunRise Solar in order for warranty repairs to be performed. This warranty does not cover the cost of labor, applicable taxes, shipping, or other consequential expenses related to the removal, return, or re-installation of the product.
